

New ECG Machine Training Tip Sheet for LIVE Remote Classes 6/15 thru 6/19

Workday Link: [“MAC VU 360 Remote Training \(Inpatient, ED, Cardiology Clinics\)”](#) (QR code below)

- **If you missed a class you enrolled in, you must first “Drop Course” on your past offering to be able to enroll in an upcoming offering.** (Why? Workday won’t allow you to be simultaneously signed up for two classes)
 - In your Workday Learning Home Page, click on the offering tile to open it up (It may be the “MAC VU ECG On-Site” offering OR the “MAC VU Remote Training” offering depending on what you were previously enrolled in)
 - Click on “drop course”

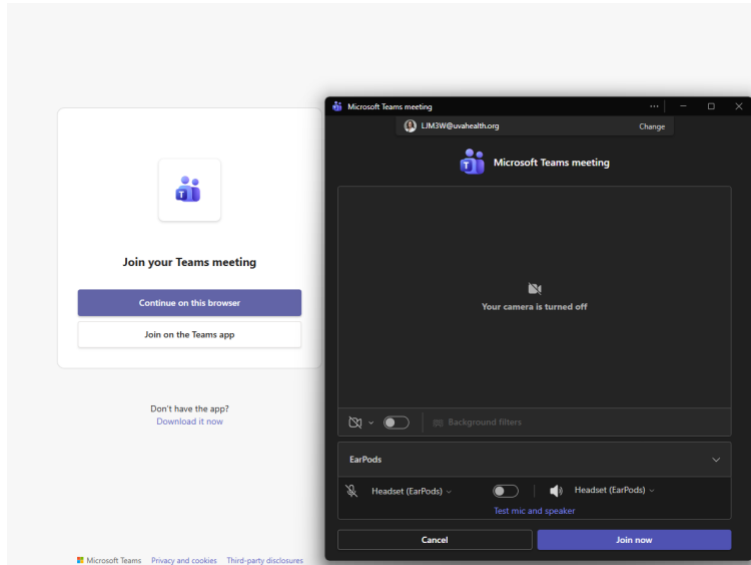

The screenshot displays the Workday Learning interface for the course "MAC VU 360 Remote Training (Inpatient, ED, Cardiology Clinics)". The top section includes a calendar icon and the text "Upcoming Scheduled Lessons". Below this, there is a button to "Add to Calendar" and a table with columns for Date, Time, and Classroom. The course title is prominently displayed, followed by a description: "This is a live, virtual training on the MAC VU 360 ECG machine." The interface also shows a "Lessons in This Course" section with a list of lessons, including "MAC VU 360 Clinical End User Agenda", "MAC VU 360 Virtual Training Link", and "MAC VU 360 Training Sessions". On the right side, there is a "Webinar Class" banner, a "Start Course" button, and a "NOT STARTED" status. Below this, there are star ratings, lesson counts, and delivery mode information. At the bottom right, there is a section for "Drop enrollments for others?" with a "Drop Learners" button. A red box highlights the "Drop Course" button, with a red arrow pointing to it from the text "No longer want to take this course?".

- **Enroll in one of this week’s live, online webinar trainings:** [“MAC VU 360 Remote Training \(Inpatient, ED, Cardiology Clinics\)”](#) or QR code:
